CERTIFICATIONS AND EDUCATION

CompTIA Security+ SY0-701

CompTIA | Certified 2026

CompTIA CySA+ CS0-003 (In Progress)

Google Data Analytics Certificate

IBM Data Analytics Certificate

MS Cybersecurity

Western Governors University (In Progress)

BS Business Administration | GPA 3.5

Franklin University, Columbus, OH

AS Computer Science | GPA 3.4

Columbus State Community College

CYBERSECURITY AND DATA PROJECTS

Security+ SY0-701 Exam Prep Platform

JavaScript | Supabase | SQL

- Built a 333-question exam simulator covering all SY0-701 domains with timed exams, spaced repetition flashcards, and Performance-Based Question simulations mirroring the real exam format
- Designed Cyber Blitz gamified challenge mode reinforcing threat analysis, incident response, and vulnerability management concepts under time pressure
- Tracked user performance data across sessions to surface weak domains and drive targeted study, applying data analytics principles to security education

Full-Stack Portfolio and CMS with OWASP Security Controls | mmohamud.me

JavaScript | PostgreSQL | Supabase | Chart.js

- Configured PostgreSQL Row Level Security across five database tables, enforcing least-privilege access control at the database layer in a live production environment
- Applied OWASP input validation on all public forms including math CAPTCHA, honeypot fields, and rate limiting, and built a content sanitization pipeline stripping XSS vectors before database writes
- Built a multi-chart analytics dashboard tracking content performance, user engagement, and 30-day view trends using Chart.js and SQL aggregation queries

KI Connect | Role-Based Access Control Live Classroom

React | Supabase Auth | Realtime

- Designed a three-tier RBAC system (Student, Teacher, Admin) with role-gated permissions enforced at both UI and database policy level, applying real IAM principles beyond textbook theory
- Built audit-ready user provisioning and de-provisioning workflows directly applicable to onboarding and offboarding security controls in enterprise environments

Kulan Institute LMS | Bilingual Security Education Platform

Full-Stack | Supabase | AI Integration

- Founded and built a bilingual English and Somali cybersecurity platform training 100 students with a 28-lesson Security+ curriculum mapped to all exam objectives
- Integrated AI-powered tutoring and a security lab environment, managing student data pipelines, access controls, and performance reporting across multiple cohorts

WORK EXPERIENCE

Student Desktop Technician | Franklin University

Dec 2023 - 2025

Columbus, OH | IT Support Department

- Provided Tier 1 and Tier 2 support resolving 100 plus tickets with documented escalation procedures, applying security configurations during device provisioning including access control and software allowlisting
- Identified and flagged security misconfigurations during routine maintenance and maintained detailed incident documentation supporting audit trails and post-incident review
- Collaborated across departments to resolve technical issues, maintaining clear written and verbal communication with faculty, staff, and administrative teams

Security Officer | Allied Universal

Feb 2023 - Present

Westerville, OH

- Monitored access control systems and security logs continuously, identifying anomalous activity and producing detailed incident reports documenting threat indicators, timelines, and response actions
- Reduced security incidents by 30% through proactive monitoring and risk-based threat prioritization, coordinating with law enforcement during escalated incidents
- Enforced least-privilege physical access principles and conducted real-time threat assessment, applying risk management skills directly transferable to cybersecurity operations

Shift Supervisor | Securitas

May 2022 - Feb 2023

Westerville, OH

- Supervised security operations across multiple sites, enforcing policy compliance and delivering weekly training on incident response, threat identification, and documentation standards
- Managed a team of 8 officers, translating complex security policies into clear operational procedures and maintaining satisfactory working relationships across client organizations

TECHNICAL SKILLS

Security:	NIST CSF ISO 27001 OWASP Top 10 Zero Trust SIEM Concepts Access Control Incident Response Risk Assessment RLS Policies
Data and Analytics:	SQL Python Tableau Power BI Pandas BigQuery Chart.js Google Data Studio
Development:	JavaScript HTML and CSS React.js Supabase PostgreSQL GitHub
Cloud:	AWS Azure Google Cloud
Languages:	English (Fluent) Somali (Native) Arabic (Conversational)

LEADERSHIP AND COMMUNITY

Founder and Executive Director | Kulan Institute of Learning

2023 - Present

- Founded a bilingual cybersecurity and AI education platform serving the Somali diaspora community, building complete LMS infrastructure and training 100 students across multiple cohorts

Co-Founder and CEO | Rise Community Development

Apr 2022 - Present

- Co-founded a youth nonprofit securing grant funding and building school and government partnerships in Columbus, OH
